

2012 GRAPH THEORY SEMESTER

Koper, Slovenia, May – June, 2012

<http://www.famnit.upr.si/sl/konference/SGT2012>

AIMS AND SCOPE: The Semester will offer series of lectures on selected topics in graph theory. Intended to help students foster their research career, international graduate students and advanced undergraduates with good background in discrete mathematics are welcome, as well as other researchers in the field. There is no participation fee. Participants will obtain a certificate with syllabi of the courses attended.

INVITED LECTURERS:

Wilfried Imrich (University of Leoben, Austria)

Gareth Jones (University of Southampton, United Kingdom)

Elena Valentinova Konstantinova (Sobolev Institute of Mathematics, Russia)

Adam Paweł Wojda (AGH University of Science and Technology, Poland)

Roman Nedela (Matej Bel University, Slovakia)

Each lecturer will deliver twenty hours of lectures, scheduled on Fridays and Saturdays, starting on Friday, May 4, 2012. Check the webpage for details on venue, scientific programme, accommodation and travel options. Please email your inquiries to

info@famnit.upr.si

LECTURE ROOM: MP-Famnit at UP Famnit, Glagoljaška 8, Koper, Slovenia.

ORGANIZED BY:

UP IAM - University of Primorska, Institute Andrej Marušič

UP FAMNIT - University of Primorska, Faculty of Mathematics, Natural Sciences and Information Technologies

ORGANIZING COMMITTEE:

Klavdija Kutnar, Aleksander Malnič, Dragan Marušič, Štefko Miklavič.
